## Synopsis:

(18 words)

From comedy to action, seven example short films beautifully explain the difference between theatrical movies and short films.

(64 words)

Movies are great... short films are different. Why are short films unpopular? Why does the picture look just a little off? Why are there proportionally fewer great short films?

"Student Short Film" doesn't pretend to be anything else. Seven films explain these and other differences between movies and shorts.

Including genres from comedy to action, there is something for everyone in this breathtaking picture.

## **Biography – Kenton Bartlett (filmmaker)**

Kenton Bartlett is a self-taught filmmaker whose love of cinema and curiosity for hands-on learning & filmmaking drove him to create this diverse and explorative short film.

'Student Short Film' is Kenton's 10<sup>th</sup> and largest film project to date. He began production and initial filming in the summer of 2007 and finished the project on his 20<sup>th</sup> birthday in April, 2008.

The film's creation on a non-existent budget would not have been possible without the generous help of the cast (fellow students, family, and a professor) and musicians involved (and their supporting record labels).

Kenton lives in Birmingham, AL and attends school in Washington, D.C.
